

Job Announcement

Omni-Means is seeking highly qualified and energetic transportation engineers and planners who want to be on the leading edge of the emerging changes in the transportation landscape throughout California. Road diets, roundabouts, enhanced pedestrian and cycling environments are here and driverless vehicles are coming soon.

Omni Means, Redding, CA Office is currently recruiting for the position of:

Transportation Design Engineer

This position requires a minimum of five (5) years increasing responsible experience in the design of complex roadway / interchange projects. Licensing as a Professional Engineer in the State of California (or ability to reciprocate) is generally required for the position but may be waived with significant project design experience.

The successful applicant(s) will demonstrate the ability to independently evaluate, select, and apply standard engineering techniques, procedures, criteria along with the application of sound professional judgment. Applicant must demonstrate proficiency in CADD (Civil 3D) drafting and design.

Omni-Means, Ltd

Omni-Means is a growing civil engineering/transportation design firm with six offices throughout California. We offer excellent benefits such as medical/dental/vision plans, company contribution to 401k, short and long term disability insurance, career enhancing training seminars, vacation, sick leave, and life insurance.
