

Job Announcement

Currently we have an immediate opening in our Roseville office for a senior transportation design engineer. We are seeking a highly qualified and energetic transportation design engineer who wants to be on the leading edge of California's evolving transportation landscape. We are looking to add to our team of talented and creative individuals on the front lines of this exciting and challenging profession.

Senior Transportation Design Engineer (Roseville Office)

This position requires a minimum of five (5) years increasing responsible experience in the design of complex roadway/ interchange projects. The ideal candidate would be a registered Professional Engineer, with a B.S. degree in Civil Engineering (or equivalent), and five plus years experience in transportation design, AutoCAD and Civil 3D proficiency, strong analytical and people skills. Responsibilities include preparation of transportation improvement plans, estimates and specifications, construction cost estimates, hydrology and water system analysis, and assistance on proposal preparation and client relationships.

Omni-Means, Ltd.
